

Article Overview

Cable tray prices in the Bahamas typically range from \$1.50 to \$25 per foot or meter, depending on material, type, size, and finish.

Price Range and Factors

- o Steel trays generally cost between \$1.50 and \$8 per foot, influenced by material type, tray size, and specifications such as galvanizing thickness and bending radius .
- o Per meter pricing ranges from \$2 to \$25, depending on the material (galvanized steel, stainless steel, aluminum, or plastic), type (ladder, perforated, or wire mesh), and surface finish .
- o Material impact: Galvanized steel is cost-effective and durable, stainless steel is corrosion-resistant but more expensive, aluminum is lightweight and rust-proof, and plastic trays are budget-friendly but not suitable for heavy loads .
- o Coating and finish: Hot-dip galvanizing (HDG) increases durability and cost, powder coating adds protection and color options, while pre-galvanized trays are cheaper but less durable in corrosive environments .

Additional Cost Considerations

- o Shipping and installation: Heavier trays and complex bends increase transport and labor costs .
- o Supplier margins and order quantity: Bulk orders may reduce unit costs, while custom specifications can increase prices .
- o Labour and equipment: Skilled installation, machinery depreciation, and energy consumption for cutting or welding affect the total project cost .

Suppliers in the Bahamas

- o Jeetmull Jaichandlall and Cable House are among the top cable tray manufacturers and suppliers in the Bahamas, offering competitive pricing and a variety of tray types for light, medium, and heavy-duty applications .
- o Bulk purchasing platforms like go4WorldBusiness connect buyers with verified suppliers for wholesale pricing .

Practical Tip

For budgeting, consider material type, tray size, and installation complexity as the main cost drivers. For large projects, requesting quotes from multiple local suppliers can help secure the best price while ensuring quality

and compliance with local standards.
