

Barbados Network Cabinet Dimensions and Specifications

Article Overview

Network cabinets in Barbados range from 6U wall-mounted to 12U floor-standing cabinets, with depths from 10" to 35", lockable doors, cooling fans, and adjustable mounting rails for 19" equipment.

12U Floor-Standing Cabinet (Sysracks)

- o Height: 12U
- o Depth: 35 inches (supports full-depth servers and UPS up to 31" rail depth)
- o Design: Lockable tempered glass front door, removable side panels, rolling casters for mobility
- o Included Accessories: Pre-installed PDU (Power Distribution Unit), cooling fan, vented shelf, mounting hardware, cable management
- o Use Case: Ideal for small offices, home data centers, or AV setups requiring organized, secure, and mobile storage of networking and server equipment

6U Wall-Mount Cabinet (RackPath)

- o Height: 6U
- o Depth: Adjustable, typically around 10 inches for cantilever shelves
- o Construction: Heavy-duty 2.4mm cold-rolled steel
- o Features: Lockable tempered glass door, removable side panels, adjustable mounting rails, cable management panels, whisper-quiet 120mm cooling fan
- o Weight Capacity: Supports up to 110 lbs
- o Use Case: Suitable for professional wall-mounted installations where space is limited, providing secure and ventilated housing for 19" IT and AV equipment

General Technical Features (Legrand & SharkRack)

- o Materials: Tubular steel, aluminum, or sheet metal
- o Load Capacity: Up to 3,000-5,000 lbs depending on model
- o Sizes: Heights from 42U to 52U, widths 600-800mm, depths 36"-54" for larger enterprise cabinets
- o Doors: Front and rear perforated or tempered glass for airflow
- o Cooling & Cable Management: Built-in PDU support, airflow management packages, vertical cable managers, and toolless cable trays
- o Customization: Configure-to-order options for seismic certification, high-density setups, and pre-loaded shipping solutions

Key Considerations

Barbados Network Cabinet Dimensions and Specifications

- o Mobility: Floor-standing cabinets often include casters for repositioning, while wall-mounted cabinets save floor space.
- o Security: Lockable doors and removable panels protect sensitive equipment.
- o Cooling: Integrated fans and vented shelves help maintain optimal operating temperatures.
- o Compatibility: Standard 19" mounting rails accommodate servers, switches, UPS, and AV equipment.
- o Cable Management: Vertical and horizontal cable management options ensure organized and efficient setups. These specifications provide a range of options for small offices, home labs, or professional IT environments in Barbados, allowing selection based on space, equipment depth, weight, and security requirements.
