

Calibration of Optical Communication Test Instruments in Zambia

Preview

5 SADCAS-accredited ISO/IEC 17025 calibration labs in Zambia -- find one to calibrate your equipment. Zambia has no national accreditation body of its own; the Zambia Metrology Agency is the country's national metrology institute. We value your honest feedback as it helps us strengthen service delivery and enhance confidence in measurement. Optical instruments are an essential component to the success of industrial applications, aiding in efforts to establish product quality. KROHNE products are designed to work reliably under real process conditions and to deliver long-term stable measurement results for many years. However, international or national standards, demanding process or environmental conditions and improper use may make it necessary to calibrate and, if. ZABS Laboratories are equipped with modern equipment and highly competent staff to deliver reliable, accredited testing services. Structured service pages for industry, institutions, and the public. Prepared for cleaner content.
