

Article Overview

Wire mesh cable trays in Canada typically cost between CAD \$10 and \$30 per meter, depending on material, size, and finish.

Price Range and Material Factors

The cost of wire mesh cable trays varies based on the material and surface finish. Pre-galvanized steel trays are the most affordable, suitable for indoor, dry environments like offices or schools. Hot-dip galvanized trays are more expensive due to thicker corrosion protection, ideal for outdoor or industrial settings. Aluminum trays are lightweight and rust-proof but cost more, while stainless steel trays are the highest priced, used in hygienic or corrosive environments such as food plants or coastal areas. Steel wire mesh trays generally range from CAD \$10 to \$30 per meter, with aluminum trays costing CAD \$20 to \$50 per meter. Custom coatings, powder-coated finishes, or specialized sizes can increase the price further.

Installation and Lifecycle Considerations

While the upfront cost of wire mesh trays may seem low, installers and contractors often consider the total project cost, including labor, fittings, and accessories. Wire mesh trays are lightweight, easy to cut, and allow simple routing of cables, which reduces installation time and labor costs compared to conduit systems. Modular 10-foot sections with snap-fit accessories are common in Canada, simplifying field joins and drops, which can further reduce labor expenses.

Cost-Saving Tips

- o Bulk purchasing can lower per-meter costs.
- o Selecting pre-galvanized steel for indoor projects reduces material expenses.
- o Using modular or tool-less systems minimizes labor costs.
- o Comparing suppliers and negotiating long-term contracts can provide additional savings. Overall, Canadian buyers can expect wire mesh cable trays to be a cost-effective solution for data centers, commercial buildings, and industrial installations, balancing durability, ease of installation, and lifecycle value.

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.
