

Cost of Waterproof Electrical Distribution Boxes in Slovenia

Article Overview

Waterproof electrical distribution boxes in Slovenia typically range from EUR20 to EUR80 depending on size, material, and features.

Overview of Pricing

- o Small to medium plastic IP65 boxes suitable for residential or small solar installations generally cost EUR20-EUR40. These often include DIN rail mounting and clear covers for easy monitoring of circuits (Desertcart Slovenia) .
- o Larger or heavy-duty boxes designed for industrial or outdoor applications, with enhanced UV resistance and more internal space, can range from EUR50-EUR80 or more, depending on the brand and configuration (Temu Slovenia, Delvalle Box) .
- o Custom or modular options with multiple compartments, higher ingress protection (IP68), or specialized materials like flame-retardant ABS/PC may exceed EUR100, especially for bulk or project-specific orders (Ruideli Technology, SinoBreaker) .

Key Features Affecting Price

- o Ingress Protection Rating: IP65 is standard for outdoor use, while IP66-IP68 offers higher water and dust resistance.
- o Material Quality: Flame-retardant ABS or polycarbonate (PC) plastics provide durability and UV resistance.
- o Size and Capacity: Larger boxes with more space for breakers, terminals, or DIN rails cost more.
- o Additional Features: Clear covers, modular design, and pre-installed DIN rails or terminals can increase the price.
- o Supplier and Shipping: Local e-commerce platforms like Desertcart and Temu may offer competitive pricing, while specialized distributors like Delvalle Box provide engineering support and custom solutions.

Recommendations

- o For residential or small solar setups, a compact IP65 plastic box with DIN rail and clear cover is cost-effective and typically priced around EUR25-EUR35.
- o For industrial or outdoor installations, consider heavy-duty enclosures with UV stabilization and larger internal space, priced around EUR50-EUR80.
- o For custom or bulk orders, contact suppliers like Ruideli Technology or SinoBreaker to get tailored solutions and pricing. By comparing local e-commerce options and specialized distributors, you can select a waterproof electrical distribution box that balances price, durability, and functionality for your specific project in Slovenia.
