

Cost of cable tray cover plates

Article Overview

Cable tray cover plates typically range from \$10 to \$50 per section, depending on material, size, and type.

Cost Factors

The price of cable tray covers varies based on several key factors:

- o **Material:** Pre-galvanized steel is the most affordable, while hot-dip galvanized steel, aluminum, and stainless steel are progressively more expensive due to durability and corrosion resistance . Stainless steel is usually reserved for harsh or hygienic environments.
- o **Size and Type:** Standard sizes like 100x60 mm or 200x100 mm cover most applications, but larger or heavy-duty covers cost more . Snap-on or hinged covers may also add to the price due to ease of installation.
- o **Finish and Coating:** Powder-coated or hot-dip galvanized finishes increase cost but improve longevity and resistance to environmental factors .
- o **Installation and Accessories:** Covers with clamps, elbows, reducers, or T-pieces may increase the total system cost . Modular systems with snap-on components can reduce labor costs, making them more cost-effective overall despite higher unit prices .

Typical Price Range

- o Pre-galvanized steel covers: \$10-\$20 per 1-meter section
 - o Hot-dip galvanized steel covers: \$20-\$35 per 1-meter section
 - o Aluminum covers: \$25-\$40 per 1-meter section
 - o Stainless steel covers: \$35-\$50+ per 1-meter section
- These prices are indicative and can vary by supplier, region, and order quantity. Bulk purchases or modular snap-on systems often reduce per-unit costs and installation time .

Recommendations

- o Choose the material based on environmental exposure and load requirements.
- o Consider snap-on or hinged covers for easier maintenance and faster installation.
- o Request quotes from multiple suppliers, providing project specifications such as tray size, length, and required load capacity to get accurate pricing . By factoring in material, size, and installation method, you can select a cable tray cover that balances cost, durability, and ease of use.
