

Article Overview

M-Box International and ASSMANN Croatia are leading manufacturers of standard-compliant outdoor distribution boxes in Croatia.

M-Box International

M-Box International specializes in outdoor and recessed distribution cabinets for residential and commercial installations. Their products comply with European standards, offering a combination of functionality, durability, and aesthetic design. The company produces cabinets for various heating and water metering systems, including single-pipe, radiator, and underfloor heating systems, made from high-quality stainless steel (1.4301). They also provide customized solutions for specific customer requirements, ensuring optimal functionality and reliability in outdoor environments .

ASSMANN Croatia

ASSMANN Croatia offers FTTH outdoor distribution boxes suitable for fiber optic networks. Their boxes accommodate 24 SC/SX or LC/DX adapters and 24 splices, with internal holders and overlength trays for efficient cable management. These boxes are designed for outdoor installation, ensuring protection against environmental factors. ASSMANN emphasizes compliance with EU regulations, high-quality materials, and robust construction to maintain signal integrity and long-term durability .

Key Features to Consider

- o Material and durability: Stainless steel or weather-resistant plastics for outdoor use.
- o Capacity: Number of adapters, splices, or circuits supported.
- o Compliance: European standards for safety and installation.
- o Customization: Options for specific system requirements or unique installations.
- o Ease of installation: Pre-configured mounting and cable management features. These manufacturers provide reliable solutions for fiber optic and electrical distribution networks, ensuring both safety and long-term performance in outdoor conditions. For procurement, contacting M-Box International or ASSMANN Croatia directly will provide detailed specifications, certifications, and pricing options .
