

# Direct procurement from distribution box manufacturers

## Preview

Discover how to purchase directly from manufacturer with verified suppliers across 133,800+ products. Start sourcing today! Direct purchasing from a manufacturer and buying through distribution models each have unique strengths -- direct buying offers lower per-unit costs for large, consistent orders, while distributors provide flexibility, storage space, smaller order quantities, "just-in-time" delivery, safety stock. Direct sourcing is a procurement strategy that allows businesses to purchase goods or services directly from the manufacturer or producer, bypassing intermediaries such as distributors, wholesalers, or retailers. This ensures product authenticity and access to technical support. In this article, we will explore the advantages and disadvantages of buying directly from manufacturers and provide a step-by-step guide on how to do it both online and offline.
