

Article Overview

Distribution box cable pricing varies based on specifications, capacity, materials, and customization options, with suppliers offering tailored quotations for industrial, commercial, and residential applications.

Factors Affecting Quotation

- o **Type and Capacity:** Distribution boxes range from residential single-phase units to industrial three-phase systems. Higher amperage and multiple circuits increase cost ().
- o **Material and Durability:** Weather-resistant, impact-resistant, and corrosion-resistant enclosures command higher prices. Outdoor-rated boxes are more expensive than indoor units ().
- o **Customization:** Options such as specific mounting configurations, labeling, integration with building management systems, and smart monitoring features can influence the quotation ().
- o **Compliance and Certification:** CE, UKCA, ISO, and IEC standards compliance ensures safety and reliability, which may affect pricing ().
- o **Accessories and Cabling:** The type of cable, connectors, and protective devices (circuit breakers, fuses, surge protection) included in the distribution box package impact the overall cost ().

Supplier Options

- o **DOHO Electric:** Offers industrial, data center, security, and telecom cable distribution boxes with customization, ISO 9001:2008 certification, and warranty support ().
- o **Distribution Zone:** Provides PowerBOX and Powersafe distribution boxes with IP44/IP67 ratings, CE & UKCA conformity, and options for high amperage up to 800A ().
- o **Rubber Box:** Specializes in power distribution boxes for events, film, and entertainment industries, offering durable and portable solutions ().
- o **Distributor Wire & Cable:** Supplies a wide range of wire and cable products suitable for integration with distribution boxes ().

Requesting a Quotation

To obtain an accurate quotation:

- o **Specify the application** (residential, commercial, industrial, or event use).
- o **Provide technical requirements:** voltage, amperage, number of circuits, and environmental conditions.
- o **Indicate customization needs:** mounting, labeling, smart monitoring, or integration with existing systems.
- o **Contact suppliers directly** through their websites or sales representatives to receive a tailored quotation based on your specifications (). By considering these factors, you can ensure that the quotation reflects both the quality and functionality required for your project while optimizing cost efficiency.
