

Article Overview

Stago, SILTEC, Trayco, and All-Rack offer high-quality Dutch cable trays suitable for commercial, industrial, and data center applications.

Stago Cable Trays

Stago cable trays are manufactured in the Netherlands and are known for their strength, flexibility, and installation efficiency . They feature double return flanges and reinforced tray designs for high load capacity and cable safety. The Unilock coupling system allows quick assembly with electrical continuity for equipotential bonding. Stago trays are available in perforated, reinforced, or closed designs, multiple heights, widths, and thicknesses, and can be supplied in custom RAL colors. They are fire-resistant (DIN 4102-12 certified for E30, E60, E90) and supported with BIM models and Environmental Product Declarations (EPD). Applications include commercial buildings, industrial installations, and data centers .

SILTEC Stainless Steel Cable Trays

SILTEC trays from CC Nederland B.V. are made of high-quality stainless steel (AISI 304), offering excellent corrosion resistance and durability . They come in lengths of 3000 mm, widths from 25 mm to 600 mm, and heights from 25 mm to 125 mm, with custom dimensions available. The rounded design protects cables and hoses, and the patented locking system ensures secure fastening while allowing easy access for maintenance. These trays are flexible to expand and suitable for various industrial and commercial applications .

Trayco Cable Trays

Trayco provides a wide range of cable trays, ladders, mesh trays, and mounting systems . Their products are designed for robust cable support and organized routing, suitable for both industrial and commercial environments. Trayco emphasizes high-quality materials and flexible installation options, making them a reliable choice for complex cabling projects .

All-Rack Cable Tray Infrastructure

All-Rack specializes in cable tray infrastructure for data centers and industrial facilities . Their solutions include ladder racks, closed conduits, and steel trays in multiple colors, designed for safety, accessibility, and efficient cable management. All-Rack focuses on customized infrastructure for colocation and hyperscale spaces, ensuring optimal performance, maintenance ease, and organized cabling .

Summary

Dutch cable trays are of good quality

For high-quality Dutch cable trays, Stago is ideal for versatile, fire-resistant, and customizable installations; SILTEC offers durable stainless steel options; Trayco provides flexible and robust cable support systems; and All-Rack specializes in data center and industrial infrastructure solutions. Each supplier emphasizes quality, safety, and installation efficiency, making them suitable for professional applications in the Netherlands.
