

Article Overview

Key optical cable manufacturers in East Asia include Taihan Fiberoptics (South Korea), Weichuang Optics (China), and Asian Cables (India), offering a wide range of fiber optic solutions for telecom and data center applications.

Major Manufacturers

Taihan Fiberoptics (South Korea) Taihan Fiberoptics is South Korea's largest producer of optical fiber and the only domestic manufacturer of preforms for fiber production. With over 37 years of experience, the company produces a broad portfolio of optical cables, including aerial and high-density narrow cables, supporting ultra-high-speed networks and next-generation telecom infrastructure . **Weichuang Optics (China)** Based in Jiangsu, China, Weichuang Optics specializes in fiber optic cables, connectors, patch cords, and customized optical solutions. Their products comply with ISO9001:2015 standards and are widely used in telecommunications and data centers. The company is trusted by major operators like China Telecom, China Mobile, and China Unicom, offering solutions with low insertion loss, high reliability, and long transmission distances . **Asian Cables / KEC International (India)** Operating under the brand Asian Cables, KEC International manufactures power, telecom, and optical fiber cables. With state-of-the-art facilities in Vadodara and Mysuru, India, the company produces EHV, HT, LV power cables, telecom and optical fiber cables, and control & instrumentation cables. Their in-house R&D and NABL-certified quality labs ensure high standards for optical cable production .

Additional Manufacturers and Resources

- o **Prysmian Group (Southeast Asia):** Offers telecom and optical solutions across Southeast Asia, including high-tech super fibre cables for data centers and urban infrastructure projects .
- o **Tianjin Eloik Communication Equipment Co., Ltd. (China):** Specializes in optical communication equipment and fiber optic cable production with German technology integration .
- o **World of Manufacturers Directory:** Provides a comprehensive listing of fiber optic cable manufacturers across Asia, useful for identifying additional suppliers and exporters .

Summary

East Asia hosts a robust optical cable manufacturing industry, with companies offering high-quality, ISO-certified products for telecom, data centers, and urban infrastructure. South Korea, China, and India are key hubs, with manufacturers like Taihan Fiberoptics, Weichuang Optics, and Asian Cables leading in production scale, technological expertise, and international partnerships. These companies provide solutions ranging from aerial and high-density cables to customized optical systems, supporting both domestic and
