

Article Overview

Key Eastern European manufacturers of low-voltage cable trays include Eurotray (Turkey) and Kirac Metal (Turkey), offering a wide range of cable management solutions compliant with European standards.

Eurotray Support Systems

Eurotray specializes in cable management systems including trays, ladders, and support systems designed for low, medium, and high-voltage applications. Their products are suitable for industrial, commercial, and data center installations, offering solutions for vertical and horizontal applications, raised floors, and areas with high cable heating. Eurotray provides galvanized, pre-galvanized, hot-dip, aluminum, and coated finishes, ensuring durability and compliance with European safety standards. They also offer turnkey solutions and custom designs for complex installations.

Kirac Metal

Kirac Metal manufactures cable trays, ladders, trunkings, and support systems for both indoor and outdoor applications. Their products conform to EN 61537:2007 and IEC 61537:2007, ensuring compatibility with European electrical installation standards. Cable trays are available in pre-galvanized, hot-dip galvanized, stainless steel (SS304, SS316), aluminum, and powder-coated finishes, with standard lengths of 3000 mm. Kirac Metal emphasizes easy installation, flexibility, and robust performance for commercial and industrial projects.

DKC Europe

While headquartered in Europe, DKC Europe provides a comprehensive range of cable tray systems and energy distribution solutions for civil and industrial infrastructures. Their offerings include perforated trays, cable ladders, and channel systems, suitable for low-voltage installations across various sectors.

Considerations for Selection

When choosing a manufacturer in Eastern Europe, consider:

- o Compliance with European standards (EN 61537, IEC 61537) for safety and durability.
- o Material options (galvanized steel, aluminum, stainless steel) for corrosion resistance.
- o Customization capabilities for complex or large-scale installations.
- o Support and service for installation, maintenance, and project-specific requirements. These manufacturers provide reliable solutions for low-voltage cable management, ensuring safety, adaptability, and long-term
