

Article Overview

Katimex, Primus Cable, Vichnet, AZE, and Fiber Savvy are leading manufacturers and suppliers of fiber optic cable trays and cable laying equipment.

Katimex

Katimex specializes in cable laying and routing equipment for fiber optic, domestic, and power cables. They offer a wide range of products including lattice cable pulling devices, winches (1-10K), cable drum trailers, cable grips, and drum lifters, designed for fast, secure, and efficient fiber optic cable installation. Their KatiBlitz series provides portable, easy-to-use tools for precise cable placement, widely adopted in telecommunications projects in Japan and globally .

Primus Cable

Primus Cable manufactures fiber cable tray systems suitable for data centers, enterprise networks, central offices, and mobile switching centers. Their systems include channels, transitional fittings, drops, and support structures that allow flexible installation. Tool-free assembly reduces installation and maintenance time, making it cost-effective for large-scale deployments .

Vichnet

Vichnet provides fiber optic cable trays designed to protect and route fiber optic patch cords, multi-fiber assemblies, and intrafacility fiber cables. Features include closed designs for cable protection, flame-retardant plastic ducts, excellent bend radius control ($\geq 40\text{mm}$), and movable cable exit kits for flexible cabling in dynamic environments like data centers .

AZE Systems

AZE offers a variety of cable management solutions, including fiber routing channels, cable ladders, and wire mesh trays. Their systems are engineered for commercial and industrial applications, providing easy installation, ceiling suspension options, and modular fittings to accommodate complex fiber optic networks .

Fiber Savvy

Fiber Savvy supplies comprehensive fiber cable tray systems for enterprise and central office applications. Their offerings include channels, transitional fittings, drops, and support structures, with tool-free assembly for efficient installation. They also provide fiber tools and testers to support installation and maintenance .

Summary

For fiber optic cable tray laying equipment, Katimex is a key manufacturer of installation machinery and cable pulling systems, while Primus Cable, Vichnet, AZE, and Fiber Savvy focus on fiber cable trays and raceway systems. Selecting a supplier depends on whether the priority is installation equipment or tray infrastructure, and many projects benefit from combining solutions from these manufacturers for complete fiber optic deployment.
