In addition, pre-terminated fiber optic pigtails support connector ins M3, OM4, pliant meeting all OM3 and OM4 specifications. The actual supported reach also depends on the electrical and op or by phone: 800. 777AFL's pigtail assemblies are available with LC, SC, FC, and ST connectors. These cables utilize 900 um tight buffered construction for rapid installation. Featuring a unified construction. Maximize the performance of your network with reliable, high-quality fiber patch and adapter panels, fiber enclosures, and fiber cassettes. You plug it into a switch, router, or patch panel.

Corning offers the most complete line of connectors and factory-terminated cables, from single-fiber patch cords to high-fiber-count
