

Article Overview

Top Indonesian manufacturers like PT. Surya Cakra Mandiri, Baruna Tray Indojaya, PT Sumber Surya Mandiri, and PT Nobi Putra Angkasa provide durable, standards-compliant cable trays and ladders suitable for industrial and commercial applications.

Leading Manufacturers and Their Offerings

PT. Surya Cakra Mandiri (SCM) specializes in cable trays, ladders, wire mesh, and FRP/GRP systems engineered for performance and long-term reliability. Their products meet ISO 9001, ISO 14001, and OHSAS 18001 standards, ensuring safety and durability. SCM offers tailored solutions for industrial projects across Indonesia, including heavy-duty ladder structures for large cables and corrosion-resistant FRP systems for harsh environments . Baruna Tray Indojaya manufactures cable trays and ladders compliant with NEMA international standards. They provide customizable designs with varying heights and thicknesses (1.5mm or 2.0mm), including hot-dipped galvanized options for superior corrosion resistance. Their products are ideal for commercial buildings, offices, hotels, and hospitals where durability and ease of installation are critical . PT Sumber Surya Mandiri focuses on steel cable trays, ladders, and wire mesh systems for industrial and commercial applications. Their heavy-duty systems offer excellent ventilation, strength, and easy access for large bundles of power and control cables. They also provide custom solutions to meet project-specific requirements . PT Nobi Putra Angkasa is a pioneer in Indonesia's cable tray industry, producing high-precision cable ladders and perforated trays. With Siemens-certified system integration and factories in Jakarta and Karawang, Nobi ensures products withstand tropical climates and harsh environments, offering IP66-rated enclosures and innovative cooling solutions .

Key Features to Consider

- o Material Options: Mild steel, stainless steel, FRP, and wire mesh for corrosion resistance and strength.
- o Customization: Adjustable heights, widths, and rung spacing to accommodate project-specific cable loads.
- o Certifications: ISO, OHSAS, NEMA, and SNI compliance for safety and quality assurance.
- o Durability: Hot-dipped galvanization and FRP coatings for long-term performance in tropical or industrial conditions.
- o Ease of Installation: Modular designs, lightweight options, and accessories for secure assembly and airflow management.

Conclusion

For high-quality cable tray supports in Indonesia, SCM, Baruna Tray Indojaya, PT Sumber Surya Mandiri, and PT Nobi Putra Angkasa are reliable choices. They offer durable, standards-compliant products suitable for
