

Honduran telecommunications tower inspection agency

Preview

CONATEL is the telecommunications regulating agency in Honduras. We provide high quality and reliable services for Type Approval. ANS provides thorough annual tower inspections to help large wireless carriers, industry-leading tower owners, and major telecom-equipment manufacturers uncover structural issues, identify areas for maintenance, and ensure TIA compliance. The law mandates the inviolability of telecommunications (prohibiting unauthorised interception except by judicial order), regulates spectrum. Honduras has taken a major step toward modernizing its telecommunications framework with the development of a new telecommunications law, prepared through an ITU-implemented project. Presented in September to the National Telecommunications Commission of Honduras (CONATEL), the draft law aims to. As a world leader in regulatory compliance requirements in Latin America, LIMBO Corporation Group LATAM, is your trusted partner for approvals in Latin America. Radio stations: Radio Honduras is the lone government-owned radio.
