

How many fiber optic cables are there in Morocco

Preview

The country currently has nearly 4 million FTTH (fiber to the home) lines distributed among the three national operators. Morocco's internet sector is expanding rapidly, with a competitive landscape shaped by three licensed operators -- Maroc Telecom, Orange Morocco, and Inwi -- all offering fibre, ADSL, 4G home broadband, and mobile data services. Cities like Casablanca and Rabat benefit from dependable, high-speed. Key Insight: Morocco has significantly expanded its fiber optic infrastructure, reaching 85% coverage in 2026, which has dramatically improved internet access quality across urban and rural areas. Minister of Digital Transition and Administrative Reform Amal El Fallah Seghrouchni. The Submarine Cable Map is a free and regularly updated resource from TeleGeography. Morocco has one of the more. Morocco targets 5. The government plans to connect 5.

Meanwhile, Morocco took second position in Q4 2024 and saw a 32% improvement in median fixed broadband
