

How to silence the alarm in the distribution box

Preview

There is no way to mute this alarm. Alternately, if the unit is on battery and you want to temporarily mute the on battery alarm, you can press the I/Test button the front of the UPS. Enter your passcode (an Owner type passcode is required). The system will begin resetting, which takes about 20. If you hold the silence alarm button for 15 seconds it should also stop beeping indefinitely. For some reason, I haven't seen this work 100% of the time though. [com/en-us/support/](https://www.vertiv.com/en-us/support/) for additional assistance. Why Is My DSC Panel Beeping? Before silencing your panel, it helps to understand common causes: Identify the Issue: The keypad will usually indicate trouble conditions via a yellow. The information contained in this document is subject to change without notice and may not be suitable for all applications. While every precaution has been taken to ensure the accuracy and completeness of this document, Vertiv assumes no responsibility and disclaims all liability for damages result from use.
