

Article Overview

Huawei Smart Distribution Boxes are available in Italy through authorized distributors such as BayWa r.e., Zeliatech, and EET Group, supporting both residential and commercial solar energy solutions.

Authorized Distributors

- o BayWa r.e.: Offers Huawei Smart PV solutions including inverters, storage systems, and backup power solutions. Their products, such as the LUNA2000 battery and SmartGuard backup system, are designed for residential and industrial applications, providing features like load management, hierarchical shutdown, and app-based monitoring .
- o Zeliatech: Acts as a Huawei Master Distributor in Europe, providing advanced technology solutions, logistics, financial support, and technical expertise for smart energy and ICT infrastructure . They support specialized distributors and offer pre- and post-sales technical assistance.
- o EET Group: Distributes over 500 Huawei products in Italy, with same-day shipping for in-stock items, making it a convenient option for businesses and installers .
- o Other B2B distributors: Companies like Duowatt Srl, Evotech Group, and La Sarda Rappresentanze also supply Huawei products in Italy, focusing on photovoltaic materials, energy-saving solutions, and IT equipment .

Product Features

Huawei Smart Distribution Boxes integrate with FusionSolar Smart PV systems and support features such as:

- o Backup power for single-phase (S0) and three-phase (T0) systems
- o Smart load management and energy optimization
- o EV charging solutions with load balancing and type 2 sockets
- o Monitoring via the FusionSolar app or browser for real-time energy management

How to Find a Distributor

You can locate the nearest authorized distributor by using Huawei's online distributor search tool, which provides company addresses, contact details, and websites . This ensures you purchase genuine products and receive proper technical support.

Summary

For users in Italy, Huawei Smart Distribution Boxes are accessible through multiple authorized distributors, offering comprehensive support for installation, monitoring, and integration with solar energy systems.
