

# Huawei Industrial-Grade Switches

## Wide-Temperature

### Preview

Huawei CloudEngine S5735I-S-V2 series industrial switches (DIN rail-mounted) are next-generation industrial switches that provide flexible all-gigabit access and GE/10GE uplinks. They stand out with an industrial-grade operating temperature range to withstand harsh outdoor cabinet environments. It offers 8 Gigabit Ethernet PoE+ access ports, 2 GE SFP ports, and 2 10GE SFP+ uplink ports, providing reliable, high-speed connectivity.

Router-switch.com offers huawei CloudEngine, Campus and smb ethernet switches, provide high-availability, high-performance networking for large-scale data centers, ISPs, and enterprise IT networks.

Most commercial switches crumble under industrial stress. The Huawei S3700 is engineered from the ground up for abuse. Its components are soldered to withstand constant vibration--no ...

CloudEngine S5731I-L series industrial switches (DIN rail-mounted) are Huawei's next-generation industrial switches. They support flexible all-gigabit access and

These switches support multiple Layer 3 routing protocols, provide higher performance, and offer more service processing capabilities. The CloudEngine

Description Huawei CloudEngine S5735I-H-V2 series industrial switches (DIN rail-mounted) are next-generation industrial switches that provide flexible all-gigabit

Huawei S5720I-SI series are standard Layer 3 gigabit switches that provide flexible all-gigabit access and cost-effective fixed GE ports and 10 GE uplink ports. They support an industry

Extended-temperature switches have an industrial-grade operating temperature range as well as professional outdoor surge protection to withstand harsh outdoor cabinet environments. As such,

Data Center Switches CloudEngine Data Center Switches -- Ethernet switches widely used in diverse applications and in different network sizes, in both data centers and high-end campus networks --

Huawei eKitEngine S210I-8P4SX is an extended-temperature Layer 2 managed switch designed for harsh outdoor and industrial environments. It offers 8 Gigabit

Compared with traditional switches without a management system, the S5731I-L supports local web-based

management and has a simplified architecture, implementing plug-and-play and simplified and

That's where Huawei Industrial Ethernet Switch dominates--forged not for climate-controlled server rooms, but for infernos of steel mills, vibrating oil rigs, and freezing wind farms. Forget consumer

The Huawei Ethernet Industrial Switch S3700 isn't here to dazzle you with buzzwords--it's built to survive. In factories where dust coats every surface, oil rigs battered by saltwater, or railways

The CloudEngine S5731I-L series supports an industrial-grade operating temperature range and can work in the cabinet in harsh outdoor environment.

Product Overview Huawei eKitEngine S210I series extended-temperature switches (S210I for short) are Layer 2 switches that are independently developed and controllable. The switches provide flexible

The S5720I-SI series video backhaul switch supports an industrial-grade operating temperature range and has a high level of outdoor surge protection. It is also

These switches deliver brutal reliability through industrial grade components hardened against chaos. When equipment costs dwarf networking investments 100-to-1, true surge protection becomes the
