

Intelligent U-shaped steel cable tray FOB price

Article Overview

The FOB price of intelligent U-shaped steel cable trays varies widely depending on material, size, customization, and supplier, typically ranging from \$20 to \$150 per meter for standard steel trays.

Factors Affecting FOB Price

o

Material Type: Steel trays can be made from electro-galvanized, hot-dip galvanized, or stainless steel. Stainless steel and specialized coatings increase durability and corrosion resistance but are more expensive .

o

Tray Size and Load Capacity: Larger trays or those designed to carry heavier cable loads require more material and stronger construction, increasing cost .

o

Intelligent Features: "Intelligent" trays may include integrated sensors, monitoring systems, or modular accessories for cable management. These features add to the base price due to electronics and installation complexity .

o

Customization and Accessories: Additional dividers, covers, or perforations for airflow can increase the price. Custom dimensions or designs for specific projects also affect cost .

o

Quantity and Supplier: Bulk orders often reduce per-unit FOB cost. Prices vary by manufacturer and country of origin, with Chinese suppliers often offering lower FOB rates compared to European suppliers .

Typical FOB Price Range

- o Standard steel U-shaped trays: \$20-\$50 per meter
- o Galvanized or stainless steel trays: \$50-\$100 per meter
- o Intelligent or highly customized trays: \$100-\$150+ per meter

How to Obtain Accurate FOB Quotes

- o **Contact Manufacturers Directly:** Platforms like Alibaba or Made-in-China list suppliers who can provide FOB pricing based on order quantity, material, and destination .
- o **Specify Requirements:** Include tray dimensions, material grade, intelligent features, and quantity to get precise quotes.

Intelligent U-shaped steel cable tray FOB price

o Consider Shipping Port: FOB pricing depends on the port of shipment; clarify the port to ensure accurate cost calculation.

By considering these factors, you can obtain a realistic FOB price for intelligent U-shaped steel cable trays tailored to your project needs.
