

Article Overview

Jiuli Electric specializes in copper and cable materials, but it is not primarily a cable tray manufacturer.

Company Overview

Jiuli Group is based in Huzhou City, Zhejiang Province, China, with convenient access to Jiangsu Province and Shanghai . Its subsidiary, Huzhou Jiuli Electric Material Technology Development Co., Ltd., focuses on copper production, processing, and sales, supplying high-quality materials for power cables, enameled wires, and other electrical applications . The company operates advanced continuous casting and rolling production lines, ensuring products exceed industry standards and are widely used by major cable manufacturers . Jiuli Hi-Tech Metals, another subsidiary, specializes in stainless steel and alloy pipes, bars, and wires, supporting industrial and infrastructure applications .

Cable Tray Manufacturing Context

Cable trays are structural systems used to support and organize electrical cables in commercial, industrial, and infrastructure projects . They come in various types, including ladder, perforated, wire mesh, and trunking, and are often made from galvanized steel, stainless steel, PVC, or fiberglass . Dedicated cable tray manufacturers, such as Shandong Jinheng Electric Co., Ltd. (JLH Electric), provide complete cable tray solutions with custom designs, fittings, and installation services . These companies focus on industrial cable management systems, whereas Jiuli primarily supplies the raw materials used in cable production.
