

Kenya Intelligent Power Distribution Cabinet Manufacturer

Article Overview

Leading manufacturers in Kenya include KENMET Ltd, Panel Tech Systems, Power Controls Ltd, and Kenya Lighting Industries Ltd, offering advanced power distribution and smart electrical solutions.

Key Manufacturers

KENMET Ltd - Based in Nairobi, KENMET Ltd specializes in the manufacture and fabrication of a wide range of electrical enclosures, including distribution boxes, control panel enclosures, meter boards, and 6U-9U hub cabinets. Their products are designed for durability and versatility, suitable for industrial, IT, and commercial applications. They offer in-house fabrication, powder coating, and machine workshop services to ensure high-quality metal enclosures and cabinets . **Panel Tech Systems** - With over 15 years of experience, Panel Tech Systems designs and manufactures low-voltage distribution panels, motor control centers (MCC), and control panels to IEC standards. They provide intelligent solutions such as PLC and SCADA-ready automation panels, smart metering, IoT-enabled components, and Automatic Transfer Switch (ATS) systems. Their products cater to hospitals, factories, schools, and commercial installations, emphasizing reliability, safety, and energy efficiency . **Power Controls Ltd** - This Nairobi-based company manufactures electrical control panels, switchboards, and meter boards. They also provide heavy-duty battery cabinets for UPS and inverter systems. Power Controls Ltd focuses on high-technology production lines and offers maintenance and repair services for industrial and commercial electrical systems, ensuring compliance with Kenya Power & Lighting Co. regulations . **Kenya Lighting Industries Ltd (KLI)** - KLI is recognized for manufacturing external commercial lighting and power distribution systems. They provide bespoke solutions and standard ranges of power distribution equipment, with in-house engineering support for technical queries, lighting design, and system integration .

Additional Options

For data centers and IT applications, Almiria Techstore supplies Power Distribution Units (PDUs) suitable for server racks, network cabinets, and industrial setups. Their PDUs include metered, switched, and surge-protected units from trusted brands like APC, Tripp Lite, Vertiv, and Eaton, supporting intelligent power management .

Summary

Kenya offers a robust selection of manufacturers and suppliers for intelligent power distribution cabinets, ranging from industrial-grade enclosures to smart, IoT-enabled panels. Companies like KENMET Ltd and Panel Tech Systems provide end-to-end solutions including design, fabrication, and installation, while Power Controls Ltd and KLI offer specialized and customizable distribution systems. For IT and data center
