

Article Overview

Trayco and Legrand are notable manufacturers of ladder cable trays, offering a range of cable management solutions and accessories.

Trayco

Trayco is a Belgian company founded in 2012 that specializes in producing and optimizing cable trays, mesh trays, and cable ladders. They provide customized solutions and guidance during installation, making them a strong choice for projects requiring tailored cable support systems. Trayco also offers mounting and floor systems, and their expertise extends to consulting on the correct materials and configurations for specific installations, ensuring efficient cable management .

Legrand

Legrand offers a comprehensive range of metallic ladder trays, including straight sections, horizontal and vertical fittings, covers, splices, and supports. Their products are designed for flexibility in installation, allowing changes in direction and height adjustments. Legrand provides detailed specifications, including material types and surface treatments, to ensure durability and compatibility with various industrial and commercial applications .

Key Considerations When Choosing a Manufacturer

- o **Material and Durability:** Ensure the trays are made from high-quality metals or treated surfaces suitable for your environment.
- o **Customization:** Some manufacturers, like Trayco, offer tailored solutions for specific project requirements.
- o **Accessories and Fittings:** Check for availability of horizontal/vertical fittings, splices, covers, and supports to complete the installation.
- o **Technical Support:** Manufacturers that provide guidance and consulting can help optimize installation and compliance with safety standards. Both Trayco and Legrand are established players in the cable management industry, providing reliable ladder cable trays and related systems for industrial, commercial, and infrastructure projects.
