Hot-pluggable SFP LC transceiver compatible with an MSA compliant SFP slot Compatible with multi-mode 850nm transmissions The multi-mode SFP supports networking for distances up to 550m (1804 ft.) SFP duplex LC connector This SFP LC module supports gigabit multi-mode fiber connections. LC Multimode Fiber Optic Transmitters, Receivers, Transceivers are available at Mouser Electronics. The hot-swappable input/output device plugs into a Gigabit Ethernet port or slot. They do not define speed, distance, or protocol, but they determine how light enters and exits the SFP module and which. TRENDnet's SFP Multi-Mode LC Module, model TEG-MGBSX, are compatible with standard SFP slots found on network switches and fiber media converters. This transceiver is supplied in the industry-standard 2 x 5 DIP style with a LC.
