

Article Overview

Leading cable tray support manufacturers in Lebanon include SFSP Lebanon, Kivolt Construction Materials, and Powerline Group, offering high-quality supports, channels, and accessories for electrical installations.

SFSP Lebanon

SFSP Lebanon produces a wide range of cable tray supports, ladder trays, trunkings, and accessories that comply with local and international fabrication standards. Their products include mill galvanized, hot-dip galvanized, and powder-coated finishes, ensuring durability and corrosion resistance. SFSP also offers basket tray systems for easy installation and supports for cable ladders and trunkings, along with metal framing systems for industrial and construction applications .

Kivolt Construction Materials

Kivolt specializes in metal framing channels and cable support systems designed to provide necessary support for cable trays, ladders, and trunking. Their products are manufactured from high-quality raw materials and are available in pre-galvanized (ASTM A653M) and hot-dip galvanized (ASTM A123 or BSEN ISO1461:2009) finishes, with custom coatings available on request. Kivolt's systems are suitable for electrical, mechanical, and industrial applications .

Powerline Group

Powerline Group, established in Lebanon since 2002, is a leading supplier of cable management systems and electrical products. They provide solutions that meet American and European standards, serving both local and international markets. Their offerings include cable tray supports and related electrical infrastructure products, making them a reliable option for large-scale installations .

Summary

For cable tray support solutions in Lebanon, these manufacturers provide comprehensive product ranges, high-quality materials, and compliance with international standards. SFSP Lebanon and Kivolt focus on metal framing and support systems, while Powerline Group offers a broader electrical product portfolio including cable management systems. These companies are suitable for both industrial and commercial electrical installations.
