

## Article Overview

FBP Malta and Hydroelectric Ltd are key suppliers of secondary distribution boxes in Malta.

### FBP Malta

FBP Malta offers a range of distribution boxes suitable for residential, commercial, and industrial applications. Their products include enclosures designed to safely house electrical circuits and components, ensuring proper distribution of electricity from the main supply to various sub-circuits. They provide solutions that comply with local electrical standards and can cater to both standard and customized requirements.

### Hydroelectric Ltd

Hydroelectric Ltd specializes in consumer units, distribution boards, and panels. Their offerings include secondary distribution boxes that are suitable for domestic and commercial installations. They provide high-quality electrical panels designed for safety, durability, and compliance with Maltese electrical regulations. Hydroelectric also offers technical support and guidance for selecting the appropriate distribution board for specific applications.

## Considerations When Choosing a Supplier

- o Compliance: Ensure the distribution boxes meet Maltese and EU electrical safety standards.
- o Capacity: Select boxes with the correct number of ways (circuit slots) for your installation.
- o Material: Boxes are typically made from durable plastic or metal to withstand environmental conditions.
- o Support: Look for suppliers offering installation guidance, technical support, and after-sales service. For businesses or individuals in Malta seeking secondary distribution boxes, FBP Malta and Hydroelectric Ltd are reliable options, providing both standard and customized solutions for safe and efficient electrical distribution.
