

Article Overview

Mexico hosts a range of manufacturers and suppliers for electrical distribution box components, including enclosures, panels, transformers, and related hardware.

Key Manufacturers and Suppliers

- o Comision Federal De Electricidad (CFE): The Mexican government-owned utility company, involved in large-scale electrical distribution projects and infrastructure, including components for distribution boxes .
- o Falco Electronics: Specializes in magnetic-based electronic components, which are often used in transformers and circuit protection within distribution systems .
- o Viakable (Xignux Group): Focuses on conductors and related electrical distribution materials, supplying components for wiring and connectivity in distribution boxes .
- o CONHESA: Manufactures high-voltage towers, electrical fittings, underground lines, and accessories, providing essential components for distribution infrastructure .
- o HiscoMex: Offers manufacturing and supply chain services for electrical components, including enclosures and custom-fabricated solutions for industrial and commercial applications .
- o TRANSFORMADOR ELECTRONICO ATENUABLE MCA TECNOLITE TREPS: Provides high, medium, and low voltage solutions, including transformers and distribution panels for industrial and CFE projects .
- o Saginaw Control & Engineering: Produces high-quality electrical enclosures in fiberglass, steel, and stainless steel, meeting various NEMA standards suitable for distribution boxes .

Additional Suppliers

- o Max. Energia y Redes (E&R): Supplies UPS systems, voltage regulators, and dry-type transformers, which are integral to distribution box setups .
- o Bricos: Distributor of electrical materials and equipment, including panels and accessories for distribution boxes .
- o Grupo Polesa: Manufactures power transmission and distribution poles, which complement distribution box installations .
- o Go4WorldBusiness Listings: Offers a directory of Mexican electric component manufacturers and B2B suppliers, allowing direct contact for quotations and sourcing .

Considerations for Sourcing

When selecting a manufacturer or supplier in Mexico:

Mexican electrical distribution box component manufacturers

- o Material and Standards: Ensure enclosures and components meet NEMA or IEC standards for safety and durability.
- o Voltage and Application: Choose suppliers that provide components suitable for your required voltage levels (low, medium, or high).
- o Customization: Some companies, like HiscoMex, offer custom fabrication and assembly services for specialized distribution boxes.
- o Distribution and Logistics: Consider suppliers with nationwide shipping capabilities or local presence for faster delivery. These manufacturers and suppliers provide a comprehensive range of components for electrical distribution boxes, from enclosures and panels to transformers and circuit protection devices, suitable for industrial, commercial, and utility-scale applications in Mexico.

GUANGPU Electrical Co.,Ltd is a professional Distribution Box Manufacturer in China, it offers one-stop customized box service for

Browse 26 Electrical Distribution companies in Mexico, including 25 with websites, 21 with employee estimates, 23 with contact

ECI provides Electrical Distribution Systems and Engineered Components that Power Industry Leaders and Advanced Technology.

Cyberall Group, distributor of Electrical Distribution, Industrial Control and Automation Equipment from world leading

PTM Mexico is a leading Mexican company specializing in the design, manufacture, and distribution of high-quality electrical and

Electronic Components Distributor specializing in connectors, capacitors, resistors and electromechanical parts. Available hard to

One of Mexico's most significant advantages lies in its abundant supply of skilled labor. The workforce is well-trained, adaptable, and

We are a marketing company of electrical equipment and engineering and integration services with more than 30 years in the

ABB provides a full range of low voltage solutions to connect, protect, control and measure a wide range of electrical

Mexican electrical distribution box component manufacturers

Expert industry market research on the Electrical Equipment Manufacturing in Mexico (2009-2024). Make better business decisions,

Electrical Distribution Systems and Engineered Components that Power Industry Leaders. For over 65 years, we have built long

GH POWER is a Spanish company based in Mexico, specialized in the design, manufacture and distribution of generator sets from 1

Discover all relevant Electrical Supply Suppliers in Mexico, including Energia y Redes S.A. de C.V and Electro Tableros de Control,

When exploring the Electronic Component industry in Mexico, several key considerations are crucial. The

We manufacture custom electrical components for companies. Production under your brand or ours, with certified quality. We design

ICA de Mexico, formerly Atronix is one of the largest and most diverse manufacturers of specialty wire harnesses, cable assemblies
