

Article Overview

Leading SC fiber optic attenuator manufacturers in the Middle East include Norden, Naficon, Sinocomms, and OTRANS, offering both fixed and variable attenuators with a wide range of specifications.

Key Manufacturers and Suppliers

1. Norden Communication (UAE) Norden is a prominent manufacturer and supplier of fiber optic attenuators in the United Arab Emirates. They provide high-quality SC fiber optic attenuators suitable for various applications, ensuring reliable performance and compatibility with standard optical networks . 2. Naficon Fiber Optic Manufacturing LLC (Dubai, UAE) Naficon is an ISO9001 certified company serving as a major manufacturing and supply center in the Middle East. They offer a broad range of fiber optic products, including SC attenuators, and maintain local production to ensure timely delivery and consistent quality . 3. Sinocomms Sinocomms supplies SC variable optical attenuators (VOA) in both inline and terminator styles. Their products support multiple connector types, including SC, LC, ST, FC, and E2000, with definable attenuation values from 1dB to 30dB. These attenuators provide precise control of optical signals for integrated or add-on applications . 4. OTRANS OTRANS is a professional fiber optic attenuator manufacturer offering both fixed (e.g., SC APC) and variable attenuators for PON, DWDM, and telecom networks. Their products are designed for high precision, low back reflection, and reliable signal control, making them suitable for large-scale or custom network deployments .

Product Features to Consider

- o Attenuation Range: Typically 1dB to 30dB, with standard and premium tolerances.
- o Connector Types: SC (UPC/APC), LC, ST, FC, and others.
- o Configurations: Female-to-female, plug type, bulkhead, inline, or terminator.
- o Applications: PON networks, DWDM systems, telecom, and data center networks.
- o Quality Standards: ISO certifications and adherence to optical signal stability requirements. These manufacturers provide both fixed and variable SC fiber optic attenuators, ensuring compatibility with a wide range of optical communication systems in the Middle East. For bulk orders or custom specifications, contacting the suppliers directly is recommended to obtain catalogs, technical datasheets, and pricing.

Discover precision fiber optic attenuators for FTTH, FTTX, LAN, and telecom networks. Fixed and variable

L-com offers an extensive line of dual wavelength (1310/1550nm) Singlemode fiber optic attenuators.

Middle East SC Fiber Optic Attenuator Manufacturer

Middle East Fiber Cable Manufacturing Co. (MEFC) is a Saudi-Japanese (Fujikura) partnership located in Riyadh, Saudi Arabia.

Our study will explain complete manufacturing process along with major raw materials required to manufacture end-product. This

FS fixed and variable fiber optic attenuators with leading attenuating fibers guarantee consistent and stable fiber attenuation

manufacturer of SC Fiber Optic Attenuator, Single-mode, Male to Female plug type, 1dB to 20dB attenuation value.

Our SC/APC 10dB fiber optic attenuators offer a low return loss and increase overall performance.

Fiber Optic Attenuator Single mode Fixed Type LC SC FC ST Fiber optic attenuator, also called optical attenuator, is a passive

The SC fiber optic attenuator can provide a stable attenuation from 1 to 20dB at both 1310nm and 1550nm transmission windows.

Discover 275 Fiber Optic Attenuators manufacturers and distributors on GlobalSpec. Find products, technical articles, videos, and more.

Product PortfolioAMS Technologies carries a broad range of fiber attenuators that provide fixed or variable attenuation of optical

Briticom(TM) SC fibre attenuators are used for the reduction of power level in an optical signal - either in an

OTRANS: Professional fiber optic attenuator manufacturer offering fixed (e.g., SC APC) and variable attenuators for PON, DWDM,

Our attenuators are a very high quality design using doped fiber to attenuate the signal. Our singlemode

Attenuators prevent overloading and protect sensitive equipment from damage. By balancing the

We offer ST, SC, FC, and LC fiber attenuators with the following dB values 5, 10, 15, 20, and 25. Some of the Singlemode
