The ST-DA3 allows the bridging of any audio line, adjustment of the gain, and driving up to three outputs. The ZT1204 12-Channel Power Distribution Box provides reliable power management with three-phase, five-wire AC380V input and dual circuit breaker protection, making it suitable for various load types. Supports up to 12 channels with 6KW per channel. Dual. Company Introduction: As a wholly-owned subsidiary of ITAP rooted in China, E-Abel is founded as an internationally corporation which develops flexible business practice in China, United States, and Singapore. Its production base in Lishui Industrial Park, Foshan, GD, enjoys exceptional locational. A distribution board (also known as panelboard, breaker panel, electric panel, DB board or DB box) is a component of an electricity supply system that divides an electrical power feed into subsidiary circuits while providing a protective fuse or circuit breaker for each circuit in a common.
