

Painting Fireproof Cable Trays

Preview

Cleaning: Remove oil, dust, and rust from the tray surface to ensure proper adhesion. The surface must reveal a clean metallic shine. **Selection:** Use primers with strong adhesion and anti-corrosion. Selecting a fire protection method for cable tray systems is not a "nice-to-have"--it affects safety, compliance, maintenance disruption, and total installed cost. Most EPC specifications narrow the choice to two mainstream solutions: fire wrap systems (encapsulation) and intumescent fire-resistant. AF CABLE COAT is a water-based fireproof paint that substantially delays fire by combustion of the insulating coating of electrical cables. It has a good permanent elasticity and follows the physiological movements of the cables depending on the temperature variations or vibrations. The product. ALTIC 007 is a water-based, intumescent fire retardant coating designed for cables, cable trays, and penetrations, providing up to 4 hours of certified circuit integrity as per NTH Mumbai testing. Our. These specialized trays are designed to provide reliable support for electrical wiring while simultaneously offering enhanced fire resistance. Fireproof.
