

Price of 96-core optical fiber junction box

Article Overview

The price of a 96-core optical fiber junction box typically ranges from \$80 to \$250, depending on material, features, and supplier.

Overview

A 96-core fiber junction box is used for connecting, distributing, and managing optical fibers in FTTx networks, CATV, and telecom systems. These boxes are designed for outdoor and indoor use, often featuring IP65 waterproof ratings, dust-proofing, and heat insulation for durability in harsh environments . They can accommodate SC, FC, or ST adapters, support 1x32 PLC splitters, and allow for fiber storage, splicing, and cable management .

Price Factors

- o Material and Build: Boxes made of reinforced plastic or stainless steel with anti-aging, anti-corrosion, and flame-retardant properties tend to be more expensive .
- o Waterproof and Environmental Protection: IP65 or IP68-rated enclosures designed for extreme temperatures and outdoor conditions increase cost .
- o Capacity and Features: Inclusion of splitter modules, adapter panels, and multiple trays for fiber splicing can raise the price .
- o Supplier and Shipping: Prices vary by supplier, shipping method, and customization options. Bulk orders often reduce per-unit cost.

Typical Price Range

- o Basic 96-core plastic junction box: \$80-\$120 per unit (suitable for standard outdoor or indoor use)
- o High-end stainless steel or reinforced boxes with splitters and adapters: \$150-\$250 per unit
- o Customized or OEM options: Prices may exceed \$250 depending on specifications and additional features .

Purchasing Tips

- o Check supplier certifications (CE, ISO) for quality assurance.
- o Confirm compatibility with your fiber type (single-mode, multi-mode, ribbon cable).
- o Consider installation requirements: wall mount, duct, or direct burial.
- o Request quotes from multiple suppliers to compare shipping costs and bulk discounts. For exact pricing, it is recommended to contact suppliers directly via platforms like Alibaba, ADCfiber, or Amazon, as prices fluctuate based on quantity, shipping, and customization .
