

Price of Custom-Made Mesh Cable Trays in the UAE

Article Overview

The price of custom-made wire mesh cable trays in the UAE varies widely depending on material, size, load capacity, and finish, typically ranging from AED 150 to AED 600 per meter for standard configurations, with higher costs for specialized or reinforced designs.

Factors Affecting Price

Material Type: Wire mesh trays are commonly made from hot-dip galvanized steel, stainless steel (SS304 or SS316), electro-zinc coated steel, or powder-coated finishes. Stainless steel and corrosion-resistant coatings increase the cost significantly due to durability and suitability for harsh or hygienic environments . **Tray Dimensions and Load Capacity:** Prices depend on width, height, and wire thickness. Standard trays for light to medium-duty applications are less expensive, while reinforced trays for heavy cable loads or industrial use cost more . **Customization:** Custom-made trays designed to specific site requirements, including bends, T-junctions, or multi-directional layouts, add to the cost. Suppliers in Dubai and across the UAE, such as West Port, Metar, and Unigroup, offer tailored solutions based on drawings or specifications . **Finish and Coating:** Powder-coated or epoxy-coated trays provide corrosion resistance and aesthetic appeal, which can increase the price compared to standard galvanized trays . **Accessories and Installation:** Additional components like support brackets, connectors, and mounting hardware are often required for safe installation and can influence the overall project cost .

Typical Price Range

- o Lightweight, standard wire mesh trays: AED 150-250 per meter
 - o Medium-duty reinforced trays: AED 250-400 per meter
 - o Heavy-duty or specialized stainless steel trays: AED 400-600+ per meter
- Prices may vary depending on supplier, order volume, and delivery location within the UAE. For precise quotations, it is recommended to contact suppliers directly, providing tray dimensions, material preference, and project specifications to receive a tailored estimate .

Recommended Suppliers in the UAE

- o West Port Middle East - Offers wire mesh and basket trays with customizable bends and reinforced options .
- o Metar - Supplies high-quality steel mesh trays suitable for commercial, industrial, and data infrastructure projects .
- o Ruwais Steel - Provides flexible wire mesh trays in various materials including stainless steel and galvanized steel .
- o Unigroup - Manufactures perforated, ladder, and wire mesh trays with full support systems and accessories .
