

Price of Fiberglass 200 Cable Tray

Article Overview

The price of a 200mm fiberglass (FRP) cable tray typically ranges from \$10 to \$50 per meter, depending on specifications and environmental requirements.

Fiberglass cable trays, also known as FRP or GRP trays, are widely used in industrial, commercial, and offshore applications due to their lightweight, high strength, corrosion resistance, and non-conductive properties . A 200mm width is a standard size that balances cable capacity, structural rigidity, and ease of installation . The cost depends on several factors: **Material and Resin Type:** Fiberglass trays are available in polyester or vinylester resin systems, with vinylester generally offering higher chemical and UV resistance, which can increase the price . **Design and Structure:** Ladder-type trays, solid-bottom trays, or perforated trays affect both load capacity and airflow. Ladder trays are common for heavy power cables, while solid or perforated trays are used for specific environmental or ventilation needs . **Environmental Suitability:** FRP trays are ideal for corrosive, humid, or offshore environments, where steel or aluminum may fail. Trays with enhanced UV protection or flame-retardant properties may cost more . **Installation Considerations:** Lightweight FRP trays reduce labor and transportation costs, but additional supports, connectors, and brackets can influence the total installed cost . **Price Range:** For a 200mm fiberglass cable tray, expect \$10-\$50 per meter, with lower-end prices for standard polyester trays in less aggressive environments and higher-end prices for vinylester or custom trays designed for harsh chemical or offshore conditions . When budgeting, consider long-term durability and maintenance savings, as FRP trays do not rust, require no painting, and have a long service life, which can offset the initial higher cost compared to steel or aluminum trays .

Fiberglass Reinforced Plastic (FRP) Cable Tray SFSP FRP Cable management System is manufactured under the brand name

Looking for durable and corrosion-resistant Fiberglass Cable Tray? Our lightweight, high-strength trays

Find here FRP Cable Tray, Frp Ladder Type Cable Tray manufacturers, suppliers & exporters in India. Get contact

Enduro's fiberglass cable ladder tray is lightweight but tough enough to withstand the toughest industrial conditions.

Our Fiberglass tray weighs 1/3 that of steel trays and is pound for pound stronger. This makes the tray easy to install, reduces the

Find 200mm cable tray price from reliable suppliers. High-quality, durable, and cost-effective solutions for
