

Article Overview

Nordic optical cable connectors typically range from around EUR3 to EUR20 per unit, depending on type, brand, and specifications.

Pricing Overview

- o Basic connectors such as SC, ST, or LC types can start at approximately EUR3 per unit for standard single-mode or multimode connectors .
- o Field-installable or fast connectors from suppliers like Norden Communication, which are factory pre-polished and compatible with multiple cable types, generally cost more due to their advanced design and low insertion loss, typically ranging EUR10-EUR20 per connector depending on the configuration and quantity .
- o High-performance or multi-fiber connectors such as MPO or MTRJ used for ribbon-style cables or high-speed applications may exceed EUR20 per unit, especially when purchased in small quantities .

Supplier Options in the Nordic Region

- o EFB-Elektronik offers a wide range of fiber optic connectors and couplers, including field-attachable types, with advice available for selecting the right connector for your application .
- o Norden Communication provides fast connectors, breakout patch cords, and DIN rail-mounted terminal boxes suitable for office LANs, telecom racks, and mini-network distributions .
- o European distributors like Mouser Electronics and RS Components supply a broad selection of connectors with online pricing, datasheets, and quantity-based discounts, making them convenient for both small and bulk orders .

Factors Affecting Price

- o Connector Type: SC, LC, ST, FC, MPO, and MTRJ connectors vary in complexity and cost.
- o Single-mode vs Multimode: Single-mode connectors often cost slightly more due to tighter tolerances.
- o Quantity: Bulk purchases reduce the per-unit price.
- o Special Features: Pre-polished, low insertion loss, or high return loss connectors are priced higher. For accurate pricing, it is recommended to check supplier websites directly, as prices can vary based on quantity, shipping, and current stock availability.
