

Price of South African Aluminum Alloy Pigtail Channel

Article Overview

Exact pricing for South African aluminum alloy pigtail channels varies by supplier, size, and alloy grade, and must be requested directly from distributors.

Suppliers and Product Details

Aluminum alloy pigtail channels, often referred to as U Channels, are commonly made from 6063 T6 alloy, which offers medium strength and excellent corrosion resistance suitable for both indoor and outdoor applications. Standard lengths are typically 6 meters, with options for cut-to-size to meet specific project requirements. Key suppliers in South Africa include:

- o Aluminium Trading Company: Offers U Channels in 6063 T6 alloy, with cut-to-size services and professional sales support for custom orders.
- o Aluminium Alloys: Provides a wide range of aluminum grades and profiles, with branches in Johannesburg and Cape Town, and can process orders to size.
- o Chamberlains: Stocks various aluminum sections including channels, angles, and flat bars for building and DIY projects.
- o Alberton Hardware: Offers aluminum channels with shipping options across South Africa, including free shipping for orders over R800 in metro areas.

How to Obtain Pricing

Since prices depend on channel dimensions, alloy grade, quantity, and delivery location, the most reliable way to get a quote is to:

- o Contact suppliers directly via email or phone. For example, Aluminium Trading Company can be reached at sales@aluminiumtrading.co.za or 011 457-7200.
- o Provide detailed specifications: include product type (pigtail/U channel), alloy grade, length, quantity, and any finishing requirements.
- o Request shipping costs if delivery is outside metro areas, as these vary by region.

Additional Considerations

- o Bulk orders may qualify for discounts.
- o Cut-to-size services can reduce waste and simplify installation.
- o Lead times vary depending on stock availability and processing requirements. By contacting suppliers with your specifications, you can obtain accurate, up-to-date pricing tailored to your project needs.
