

Price of cable tray funnel tee

Article Overview

Cable tray tees are priced between GBP2.57 and GBP7.20 each, depending on size and duty rating, while funnel prices vary by supplier and specifications.

Cable Tray Tees Pricing

Cable tray tees are used to branch cable runs efficiently while maintaining structural integrity. For medium-duty pre-galvanised equal tees, prices from UK suppliers like Orbital Fasteners range from GBP2.57 to GBP7.20 including VAT, depending on the size and flange type . Suppliers such as TradeSparky and Shop4 Electrical also offer a variety of sizes and brands, including Legrand, suitable for both domestic and industrial installations . Prices may vary based on material (steel, stainless steel, or plastic), duty rating (light, medium, heavy), and supplier discounts.

Cable Tray Funnels Pricing

Cable tray funnels, which are used to guide cables into trays or transition between different tray sizes, are less commonly listed with fixed prices online. Pricing typically depends on material, size, and manufacturer. For accurate pricing, it is recommended to check with electrical wholesalers or suppliers such as Edwardes or Ekabel24, which provide a range of cable tray accessories including bends, tees, and funnels . Custom or heavy-duty funnels may cost more than standard light-duty versions.

Tips for Procurement

- o Compare suppliers: Prices can vary significantly between wholesalers.
- o Check duty rating: Ensure the tee or funnel matches the load requirements of your installation.
- o Consider bulk orders: Many suppliers offer discounts for larger quantities.
- o Verify material: Galvanised steel is common for durability, while plastic or stainless steel may be needed for specific environments. By consulting multiple suppliers and confirming specifications, you can ensure both cost-effectiveness and compliance with installation standards.
