

Price of cable tray support size

Article Overview

Cable tray support prices vary widely depending on size, type, and material, ranging from around \$7 to over \$288 per unit or per box.

Typical Price Ranges

- o Small wall or ceiling supports (6-12 inches): \$7-\$62 each, depending on material and brand (e.g., nVent Hoffman J-Bolt Kit \$7.56, Platt Electric 12" ceiling support \$23.92, wall angle supports \$41-\$62)
- o Triangular or trapeze supports for 6-12 inch trays: \$70-\$102 each, suitable for heavier loads or wider trays
- o Boxed sets for multiple supports: \$288 per box of 50 trapeze-style side supports for trays up to 16 inches wide
- o SnapTrack aluminum channel supports: \$27-\$30 for smaller sizes (2"x2" or 4"x2")
- o Wire mesh or floor-mounted supports: Prices vary from \$26 to \$77 per pack depending on size and quantity

Factors Affecting Price

- o Material: Steel, aluminum, or zinc-plated steel affects durability and cost. Aluminum supports are generally lighter and slightly more expensive per unit.
- o Size and Load Capacity: Larger supports for wider trays or heavier cable bundles cost more.
- o Type of Support: Wall-mounted, ceiling-mounted, floor-mounted, or trapeze-style supports have different pricing.
- o Quantity: Bulk purchases or boxed sets reduce per-unit cost.

Additional Considerations

- o Some suppliers, like Graybar or Platt Electric, require account registration or ZIP code entry to view exact pricing for certain industrial sizes .
- o Accessories such as bolts, nuts, and washers may be sold separately, adding to the total cost.
- o Specialty supports for high-capacity or custom installations can exceed \$200 per unit . In summary, small standard supports start around \$7-\$25, mid-range supports for medium trays range from \$40-\$100, and bulk or heavy-duty supports can reach \$288 per box. Prices vary by supplier, material, and tray width, so it's recommended to check specific product listings for exact costs.
