

Quick Jumper Wire for Distribution Box

Preview

Pre-assembled with a single TYCO 1/4", Fully Insulated, Nylon, Quick Disconnect terminal on one end and 1/4" strip on the other. Ideal for ground and terminal wiring. Can be trimmed down to size if needed. Available in Black, Green, and Red. Products in the jumper wire family are primarily used in hobby or development contexts involving the use of solderless breadboards and/or interconnect systems based on common 0.54 mm pitch, square contact rectangular connectors. Available products include multi-conductor cables terminated. Ready to install in panel boxes, switches, outlets, and other devices, these cords come with a spade terminal already attached to one end. Enough to meet your daily needs Portable kit: all jumpers are properly stored in a transparent plastic sorting box. [0m:17s] Also, sometimes referred to as a jumper bar or terminal block jumper, a jumper is typically a short length of conductor, commonly copper, that is used to connect two or more points within an electrical circuit.

Choose from our selection of terminal jumpers, including ring terminal jumper cords, spade terminal cords, and more. Same and Next Day Delivery.
