

Article Overview

JEAN MULLER, Konner & Sohnen, and Elektron Berlin are well-known German manufacturers of high-quality electrical distribution boxes.

JEAN MULLER

JEAN MULLER offers a wide range of enclosures and distribution boards, including service entrance boxes, small distribution pillars, standard cable distribution cabinets, and low-voltage distribution boards. Their products can be supplied empty for custom installation or fully equipped and ready for connection, with components designed and produced in-house. JEAN MULLER emphasizes compliance with DIN EN 61439/DIN 43629 standards, ensuring safety and reliability for industrial and power distribution applications. They also provide individual consulting and customized solutions for specific project requirements .

Konner & Sohnen

Konner & Sohnen manufactures distribution boards suitable for indoor and outdoor use, supporting up to 7 groups of devices with a maximum current of 32A. Their boards feature circuit breakers, grounding bars, and integrated sockets, providing protection against overloads and short circuits. The enclosures are rugged, impact-resistant, and weatherproof, making them suitable for homes, offices, construction sites, and heavy-duty industrial operations. Certified models are available directly from their official website .

Elektron Berlin

Elektron Berlin produces ELKRAFT(R) power distributors, including construction site power distribution cabinets, wall distributors, socket strips, and MINI distributors. With over 100 years of experience, they offer robust, high-quality products that comply with current technical standards. They provide customized production, assembling products according to client specifications, and perform quality inspections in accordance with DGUV regulation 3. Their distribution boxes are designed for safety, durability, and ease of use in both industrial and residential applications .

Summary

For reliable German manufacturers of electrical distribution boxes, JEAN MULLER is ideal for industrial and customized solutions, Konner & Sohnen offers versatile and certified boards for residential and construction use, and Elektron Berlin specializes in robust, site-ready power distribution systems with extensive customization options. These companies are recognized for quality, compliance with standards, and long service life, making them suitable choices for professional electrical installations.
