

## Article Overview

Senegal hosts several specialized companies providing optical cable splicing, installation, and maintenance services for both terrestrial and submarine networks.

## Key Companies and Services

1. Africa Offshore Services and Engineering Works Plc (AFOSE WORKS Plc) AFOSE WORKS offers comprehensive optical fiber services including underground and aerial cable deployment, splicing, termination, fiber testing, and installation of ATB, TB, FDT for FTTH, FTTX, FTTD, and FTTA. They also handle trenching, manhole and handhole construction, and technical service and repair. While primarily active in Cameroon, Chad, Central African Republic, Gabon, Congo, and Equatorial Guinea, they provide expertise relevant to Senegal-based projects . 2. SODIMEL Internationale SA Based in Senegal, SODIMEL specializes in IT, networking, and telecommunications services, including fiber optic cabling, civil engineering, audits, and maintenance. They are a local option for companies seeking both installation and ongoing support for fiber optic networks . 3. LES CABLERIES DU SENEGAL - S.A Located in Dakar, LES CABLERIES DU SENEGAL is a prominent company in the cabling and fiber optic sector. They provide a range of services for telecommunications infrastructure and are listed in business directories such as Dun & Bradstreet for detailed company profiles and contact information . 4. W.O.C.S (Worldwide Optical Cable Services) W.O.C.S operates globally and has a subsidiary in Dakar, Senegal, offering onshore and offshore fiber optic cable installation, including terrestrial and submarine networks. Their services cover engineering, project management, permitting, procurement, quality assurance, maintenance, and training, supporting clients like ASN, SONATEL, and Telecom Egypt .

## Additional Resources

For a broader list of optical cable companies in Senegal, directories such as Yelu.sn provide a compilation of local providers, including addresses in Dakar and surrounding areas, which can be useful for contacting multiple service providers for quotes or project inquiries .

## Summary

Senegal has a growing market for fiber optic deployment and splicing services, with both local companies like SODIMEL and LES CABLERIES DU SENEGAL, and international operators like W.O.C.S offering specialized expertise. Services typically include splicing, testing, installation, maintenance, and project management, suitable for telecom, IT, and infrastructure projects.
