

Supply of electrical distribution box housings from Irish manufacturers

Article Overview

Ireland has a robust supply of electrical distribution box housings, with multiple manufacturers and distributors offering steel, stainless steel, GRP, and aluminium enclosures for industrial and commercial applications.

Key Irish Suppliers and Manufacturers

Demesne Electrical offers a wide range of electrical enclosures including steel, stainless steel, GRP, Fibox, and die-cast aluminium, along with distribution boxes and panel accessories. Their products are suitable for industrial and panel-building applications, with IP66/67 ratings and IK08 impact resistance for GRP enclosures, ensuring durability and protection for electrical components. Glasdon Ireland specializes in bespoke and standard GRP and steel enclosures, providing compact outdoor cabinets up to large walk-in enclosures. Their Citadel(TM) and Fortress(TM) ranges offer IP56-rated protection, double-skinned insulated walls, and reinforced doors, suitable for electrical equipment, switchgear, and monitoring systems. National Electrical Wholesalers (NEW) supply a variety of distribution boxes and electrical equipment across Ireland, with nationwide branches ensuring accessibility and service support. BPX stocks terminal and distribution boxes from leading brands such as Schneider, catering to both standard and specialized applications.

Materials and Specifications

- o Steel and Stainless Steel: Durable, corrosion-resistant, suitable for indoor and outdoor installations. Stainless steel enclosures often meet IP66 standards.
- o GRP (Glass Reinforced Plastic): Lightweight, impact-resistant, and weatherproof, ideal for outdoor and industrial environments.
- o Die-Cast Aluminium: Offers high strength and thermal conductivity, suitable for control stations and sensitive electronics.

Additional Considerations

- o IP Ratings: Ensure the enclosure meets the required protection against dust and water ingress (IP66/IP67 common).
- o Customization: Many suppliers offer bespoke sizes and pre-assembled units for efficient installation.
- o Accessories: Filter fans, heaters, thermostats, and ventilation options are available to maintain optimal conditions inside the enclosures.
- o Distribution and Delivery: Suppliers like Demesne Electrical and EWL Electric provide express delivery and nationwide coverage, ensuring quick access to stock. For sourcing electrical distribution box housings in Ireland, contacting Demesne Electrical, Glasdon Ireland, BPX, and National Electrical Wholesalers is
