

Article Overview

A 4-core fiber optic distribution box (FDB-104B) with IP55 protection and SC connectors is available in Venezuela through authorized distributors like GENTEQUEIMPORTA C.A., offering warranty and support for FTTx deployments.

Product Overview

The 4-core fiber distribution box (also known as an optical distribution box, ODB) is a compact solution for fiber management, widely used in FTTx cabling. It provides secure connections between fiber optic cables and passive optical splitters, typically featuring SC connectors and optional PLC splitters for signal distribution. The box is designed for both indoor and outdoor use, with an IP55 rating ensuring protection against dust and water ingress, and durable materials like ABS+PC for mechanical protection of fiber splices .

Warranty and Support in Venezuela

In Venezuela, GENTEQUEIMPORTA C.A. is an authorized distributor of Beyondtech products, including fiber optic distribution boxes. They provide warranty coverage and post-sale support, ensuring that installations meet local telecom standards. Orders from Europe typically arrive within 4-6 business days, and the company offers guidance for installation and project execution across the country . Their team is experienced in supporting telecom, banking, public, and private sectors, making them a reliable source for both product quality and technical assistance.

Installation and Deployment

- o Suitable for FTTH/FTTx networks, connecting optical cables to splitters or terminal points.
- o Can be mounted on walls, poles, or inside cabinets depending on network requirements.
- o Designed for dustproof and waterproof protection, ensuring long-term durability in outdoor environments.
- o Supports SC connector adapters and can accommodate passive optical splitters for signal distribution .

Key Considerations

- o Verify the core capacity (4 cores) matches your network design.
- o Confirm warranty terms with the distributor before purchase.
- o Ensure proper physical and network security during installation to protect fiber connections.
- o Compatible with standard FTTx deployments and can integrate with existing optical distribution networks in Venezuela . For purchasing, technical support, and warranty services, contacting GENTEQUEIMPORTA C.A. directly is recommended, as they are the primary authorized distributor for Beyondtech fiber optic

products in Venezuela .
