

What is the selling price of French optical fiber cables

Article Overview

The average export price of French optical fiber cables in 2023 was approximately \$14,697 per ton, while the average import price was around \$10,530 per ton.

Market Pricing Overview

In 2023, French optical fiber cables exported to international markets averaged \$14,697 per ton, reflecting a 40% increase compared to the previous year, though prices have fluctuated significantly over the past decade, peaking at \$28,971 per ton in 2018 . Imports into France averaged \$10,530 per ton, which represents a 23.9% decrease from the previous year, with prices varying widely depending on the country of origin, from \$3,494 per ton (Poland) to \$38,516 per ton (China), .

Supplier and Retail Options

For direct purchasing, companies like Farnell France offer a wide range of fiber optic cables with fast quotes, same-day dispatch, and technical support . Additionally, B2B marketplaces such as Europages list over 90 French suppliers and wholesalers, allowing buyers to request quotes and negotiate prices directly . Prices in these channels depend on cable type, length, fiber count, and technical specifications.

Factors Affecting Price

- o Cable type: Single-mode vs. multi-mode fiber, armored vs. non-armored
- o Quantity: Bulk orders typically reduce per-ton cost
- o Supplier and origin: Domestic vs. imported cables
- o Market trends: Demand fluctuations, raw material costs, and technological upgrades

Summary

While the average market price for French optical fiber cables ranges from \$10,500 to \$15,000 per ton, actual selling prices can vary significantly based on specifications, supplier, and order volume. For precise quotes, contacting suppliers directly through platforms like Farnell France or Europages is recommended .
