

Where to buy commonly used fiber optic patch cords in Southeast Asia

Article Overview

You can find fiber optic patch cords from multiple suppliers in Southeast Asia, particularly in Singapore and Malaysia, offering a wide range of types, connectors, and custom solutions.

Suppliers in Singapore

- o LKH Projects Distribution - Offers versatile fiber patch cords for connecting patch panels to network devices, suitable for various business sizes and scalable network setups . Website: [LKH Projects Distribution](#)
- o Pearlyond Technologies - ISO9001 certified manufacturer providing fiber optic patch cords, adapters, attenuators, pigtails, and test equipment. They stock multimode and single-mode cables with connectors including LC, SC, ST, FC, MPO/MTP, and more. Custom orders are available . Website: [Pearlyond Technologies](#)
- o FS Singapore - Supplies low-loss fiber patch cables supporting high-speed networks up to 400G. Offers various connector options and custom cable solutions . Website: [FS Singapore](#)
- o FiberTek - Provides fiber optic cables, patch panels, and test equipment suitable for harsh environments and direct burial installations. They also offer fiber media converters and other related products . Website: [FiberTek](#)

Suppliers in Malaysia

- o Suntrec Solution Sdn Bhd - Offers a complete selection of fiber optic patch cords for indoor applications, widely used by telecommunications companies. They supply trusted brands and provide interconnect-style cabling for terminals, patch panels, and optical cross-connect distribution centers . Website: [Suntrec Solution](#)

Tips for Purchasing

- o Connector Type: Ensure compatibility with your network equipment (LC, SC, ST, FC, MPO/MTP, etc.).
- o Fiber Type: Choose between single-mode (9/125) or multimode (50/125, 62.5/125) depending on distance and bandwidth requirements.
- o Custom Orders: Many suppliers offer custom lengths and connector combinations.
- o Testing Equipment: Consider suppliers that also provide fiber optic test equipment for installation and maintenance. These suppliers provide both standard and custom fiber optic patch cords, making them suitable for data centers, telecom networks, and enterprise networking projects across Southeast Asia.
