

Where to buy fiber optic cable boxes for your home

Article Overview

You can purchase fiber optic cable boxes for home use from online retailers like Amazon, CableOrganizer, and Infinite Cables, offering a wide range of indoor and outdoor enclosures.

Online Retail Options

Amazon offers a large selection of fiber optic boxes, including wall-mounted, rack-mounted, and splice enclosures. Popular options include 2-12 port FTTH fiber distribution boxes, LC coupler wall mount boxes, and waterproof outdoor enclosures suitable for single-mode and multimode fiber cables . You can also find multi-purpose splice enclosures that include SC/APC, SC/UPC, ST, and LC couplers for easy home installation . CableOrganizer provides fiber optic enclosures designed to protect and organize delicate fiber cables. They offer wall mount, patch panel, and rack mount enclosures, along with accessories like splice trays and cable strain relief kits, which help maintain signal integrity and prevent damage . Infinite Cables specializes in fiber optic wall boxes and splice enclosures for both indoor and outdoor use. Their products range from small 1-port terminal boxes to larger 96-coupler distribution boxes, suitable for home or small office setups .

Local Internet Providers

If your goal is to connect your home to a fiber optic network, some internet service providers in your area may provide the fiber optic gateway box as part of installation. In Moses Lake, WA, providers like Grant PUD, Vyve Broadband, Quantum Fiber, and Centurylink offer fiber internet services and can install the necessary fiber optic box at your home . Nighthawk Networking also coordinates installation with local PUD contractors, ensuring the fiber optic gateway is properly provisioned .

Tips for Choosing a Fiber Optic Box

- o Indoor vs. Outdoor: Choose a waterproof, UV-resistant enclosure for outdoor installations.
- o Port Capacity: Select a box with enough ports for your current and future fiber connections.
- o Compatibility: Ensure the box supports your fiber type (single-mode or multimode) and connector type (LC, SC, ST).
- o Mounting Options: Wall-mounted boxes are ideal for home setups, while rack-mounted enclosures suit more complex networks. By purchasing from these online retailers or coordinating with your local fiber provider, you can get a reliable fiber optic cable box for home installation, ensuring protection and organization of your fiber network.
