

# Which brand of mesh cable trays is better

## Preview

We tested seven popular under-desk cable management trays and clamp-on raceways. Three winners stood out: the Yecaye 25 in. for full runs, the Yecaye Metal Mesh as the no-drill budget pick, and the Cinati White for white standing desks. Ladder trays are built for heavy power cables, long spans, and harsh environments. This guide will help you choose the best cable tray. Cable trays, as the name suggests, are structural systems used to hold and support cables and wires in commercial, industrial, and infrastructure settings. Three families dominate most projects-- ladder, perforated, and wire mesh. Choosing the right one depends on span length, loading, environment, and the type of cable you need to support.
