

Which company installs electrical distribution boxes in Kuwait

Article Overview

Electrical Projects Company, Keming Electrical, Bin Shehab International, and Ahmadi Group are among the leading providers of electrical distribution box installation services in Kuwait.

Key Companies

1. Electrical Projects Company (EPC) EPC specializes in low and medium voltage distribution boards, switchboards, motor control centers, and feeder pillars. They provide full services including installation, testing, commissioning, and maintenance for industrial, commercial, and public sector projects. EPC has experience with power generation, petrochemical, oil & gas, hospitals, and large building constructions in Kuwait, making them a reliable choice for complex electrical distribution projects (EPC Kuwait) . 2. Keming Electrical Keming Electrical manufactures and supplies junction boxes, distribution boards, and metering enclosures suitable for residential, commercial, and industrial applications. Their products are IP-rated, explosion-proof, and compliant with MEW and international standards, making them ideal for Kuwait's infrastructure, energy, and construction projects. They also support smart grid, EV charging, and renewable energy installations (Keming Electrical) . 3. Bin Shehab International General Trading & Contracting Co (BSICO) BSICO provides a wide range of electrical solutions including conduit systems, relays, and wire management, and can handle installation of distribution boards and related electrical infrastructure. They serve multiple industries and are known for efficient project execution and reliable service (BSICO) . 4. Ahmadi Group Ahmadi Group offers turn-key electrical projects, including high and low tension electrical installations. They manage projects from design to completion, covering industrial, commercial, and public sector electrical systems, including distribution boards and solar PV integration (Ahmadi Group) .

Summary

For installing electrical distribution boxes in Kuwait, these companies provide comprehensive services from supply to installation and maintenance. EPC and Ahmadi Group are particularly suited for large-scale industrial and commercial projects, while Keming Electrical offers specialized enclosures for high-standard infrastructure and renewable energy projects. BSICO is ideal for general electrical installations and wire management solutions.
