

Which company makes the best authentic galvanized cable trays from the Middle East

Article Overview

Top manufacturers in the Middle East include West Port Cable Tray, Emerald Steel Industries, ADHWA, Unigroup, and Al-Babtain Power & Telecommunication, all offering high-quality galvanized cable trays suitable for industrial and commercial applications.

Leading Manufacturers

1. West Port Cable Tray (UAE) West Port is a prominent manufacturer in the UAE, specializing in high-performance cable containment systems for sectors such as construction, oil & gas, marine, telecommunications, and data centers. They operate a state-of-the-art facility with CNC machines and galvanized coating lines, producing cable trays that comply with IEC 61537, NEMA VE1, and BS EN 50085 standards. Their solutions include perforated and ladder trays, customized for load capacities and environmental conditions in the GCC region .

2. Emerald Steel Industries (Ajman, UAE) Emerald Steel Industries manufactures hot-dip galvanized and pre-galvanized steel trays for both indoor and outdoor applications. They serve oil & gas, industrial facilities, and power plants, offering light to heavy-duty cable trays. The company is ISO 9001 certified, ensuring consistent quality and reliability for large-scale projects .

3. ADHWA (Saudi Arabia & Middle East) ADHWA provides a broad range of cable tray systems, including mill-galvanized, hot-dipped galvanized, stainless steel, and epoxy-coated trays. Their ladder, channel, and perforated trays are designed for long support spans and can function as equipment grounding conductors. ADHWA emphasizes durability and compliance with industrial standards, making them suitable for construction, electrical, and telecom projects .

4. Unigroup (UAE) Unigroup manufactures galvanized, ladder, and perforated cable trays with high corrosion and fire resistance. Their products are engineered for commercial, industrial, and utility applications, combining certified load performance with long-term reliability. They also offer GRP/FRP systems for chemical or highly corrosive environments .

5. Al-Babtain Power & Telecommunication (Middle East) Founded in 1960, Al-Babtain specializes in heavy-duty cable trays and custom designs for complex cable management systems. They serve energy, oil & gas, power generation, and telecommunication sectors, providing durable galvanized solutions tailored to the Middle East's harsh climate .

Key Considerations for Selection

Which company makes the best authentic galvanized cable trays from the Middle East

- o Material & Coating: Hot-dip galvanized trays are preferred for coastal or high-temperature regions due to superior corrosion resistance. Pre-galvanized steel is suitable for indoor or less corrosive environments.
- o Compliance & Standards: Ensure trays meet IEC, NEMA, BS EN, or ISO 9001 standards for safety and performance.
- o Customization: Manufacturers offering tailored solutions can accommodate complex layouts, load requirements, and project-specific environmental conditions.
- o Support & Installation: Technical support, design assistance, and availability of accessories and fittings are critical for efficient installation and long-term reliability.

These manufacturers provide a combination of high-quality galvanized materials, compliance with international standards, and regional expertise, making them reliable choices for industrial, commercial, and infrastructure projects in the Middle East.

Infrastructure Projects - Used in airports, metro stations, tunnels, and bridges With a 225,000 sq. ft.
