

Which company makes the best low-voltage network cabinets in Kenya

Article Overview

Top brands for low-voltage network cabinets in Kenya include Giganet, Easenet, ACP, Arnet, and APC, known for quality, durability, and local availability.

Recommended Brands and Features

Giganet Giganet cabinets are widely available in Kenya and offer a range of sizes from small wall-mount units (4U-12U) to larger floor-standing models (22U-42U). They feature perforated doors for airflow, removable side panels, adjustable mounting rails, and basic cooling fans. Giganet is popular for its balance of quality, affordability, and accessibility, making it ideal for small to medium businesses . Easenet Easenet provides robust steel cabinets with lockable glass or perforated doors, cooling fan options, PDU mounting, and castor wheels for floor-standing models. Known for reliability and competitive pricing, Easenet cabinets suit both office and data center environments . ACP ACP cabinets are designed for both networking and server applications, offering welded steel construction, adjustable rails, and efficient ventilation. They are suitable for businesses needing secure and durable housing for IT equipment . Arnet Arnet cabinets focus on functional design, cable management, and secure locking mechanisms. They are versatile for various networking setups and provide good airflow and equipment protection . APC APC cabinets are globally recognized and available in Kenya through distributors. They offer high-quality construction, integrated cooling, and PDU compatibility, making them suitable for critical IT infrastructure .

Key Considerations

- o Mounting Style: Wall-mount cabinets (4U-12U) are ideal for small spaces or CCTV setups, while floor-standing cabinets (15U-42U) are better for data centers or heavy server equipment .
- o Ventilation: Ensure cabinets have perforated doors or cooling fans to manage heat from active equipment .
- o Accessories: Look for cabinets with PDUs, cable management trays, and adjustable rails for organized and efficient setups .
- o Local Availability: Nairobi, Mombasa, and Kisumu have distributors stocking these brands, often with same-day delivery options .

Conclusion

For low-voltage network cabinets in Kenya, Giganet and Easenet are excellent choices for affordability and reliability, while ACP, Arnet, and APC provide more robust and secure options for larger or critical installations. Selecting the right cabinet depends on your equipment size, airflow needs, and security requirements.
